

JOB ID: NSHCE2001

# Civil Engineer

Nashville, TN

## Overview

Hurst-Rosche has an exciting opportunity for a Civil Engineer based in our Nashville office. We are an integrated design firm that unites a dynamic team of architects, engineers, surveyors, and industry specialists driven to help solve our clients' greatest challenges. Duties will include:

- Civil Site Design with emphasis on stormwater management and detention design.
- Construction Observation tasks and daily construction reports.
- Analyze engineering documents, layouts, technical reports and drawings
- Read, interpret, and prepare CAD production drawings from schematic to construction design phases with the support of dedicated technical staff as needed.
- Prepare and edit specifications relating to existing or new projects.
- Participate in collaborative environment with architectural/engineering team members
- Review submittals and shop drawings for compliance of specifications and contract documents.

Qualified candidates must have a Bachelor in Civil Engineering. Minimum of 4 years of related experience required. Professional Engineer License is desired, but not required. Familiarity with Metro Nashville and STREAM is desirable, Familiarity with AutoCAD or MicroStation, or similar platforms preferred. Excellent written & verbal communication skills are essential. Site visits frequently require physical inspection of and may be done independently.

As a condition of employment, all employees are expected to complete mandatory training, including compliance training, within required timeframes and adhere to our internal policies.

Hurst-Rosche recognizes the value of diversity in our workforce. We are committed to equal opportunity. We consider all qualified employment applicants without regard to race, religion, color, gender, age, national origin, sexual orientation, gender identity, partnership status, protected veteran status, disability, or any other status protected by federal, state, or local law.
