

Geotechnical Engineer

Hillsboro/East St. Louis, IL or Arnold, MO

Hurst-Rosche has an exciting opportunity for a Geotechnical Engineer based in one of our Illinois or Missouri office locations. We are an integrated design firm that unites a dynamic team of architects, engineers, surveyors, and industry specialists driven to help solve our clients' greatest challenges. Duties will include:

- Perform geotechnical engineering design calculations, visual classification of soils, and creation of geotechnical engineering reports.
- Perform design computations by hand and computer software.
- Understand ASTM procedures as they relate to geotechnical engineering.
- Perform laboratory tests – Unconfined Compression Strength, Atterberg Limits, Proctors, and others as needed.
- Ability to organize and handle multiple projects and meet deadlines.
- Perform site investigations to assess site conditioning.
- Environmental engineering background is a benefit.
- Field boring collection experience is a benefit.

Qualified candidates must have a B.S. Degree in the field of study or related. Professional Engineering License is considered a significant benefit.

Hurst-Rosche offers a dynamic, collaborative and rewarding environment while providing the flexibility to balance your personal and professional life. We offer a competitive salary and benefits package, matching 401k, affordable health, dental, and vision coverage, paid life insurance and short-term disability coverage.

Hurst-Rosche recognizes the value of diversity in our workforce. We are committed to equal opportunity. We consider all qualified employment applicants without regard to race, religion, color, gender, age, national origin, sexual orientation, gender identity, partnership status, protected veteran status, disability, or any other status protected by federal, state, or local law.
